The work of the Dr. Theodore Atlas Foundation is no laughing matter. But since our mission is to help people in true need get up off the canvas and back into the fight of life we believe that one of the best ways to replace their tears with smiles is with a Dr. Atlas Comedy Night.

"My medical doctor father told me long ago that laughter really is a miracle drug," says Teddy Atlas, of his father Dr. Theodore A. Atlas for whom his foundation is named. "If people find joy in life then life is worth living, and so let's start with a good hearty laugh."

The money raised at a Dr. Atlas Comedy Night helps the Atlas Foundation send local kids who have improved their attitude and behavior in school to professional sporting venues they would otherwise never experience, funds vital local youth sports and scholarship programs, and helps provide Thanksgiving turkeys to hundreds of struggling families and pays Santa's elves for a toy giveaway to local kids in the Yuletide. It also helps seniors and families in emergency crises in countless ways. So please come and laugh till it hurts to help make other stop hurting.
