THE DR. THEODORE A. ATLAS FOUNDATION

Is a not-for-profit community service organization that provides financial and emotional support to individuals and organizations in need, and focuses particularly on the needs of children. It was founded in 1997 by boxing trainer, author, commentator and motivational speaker Teddy Atlas to honor the memory of his father, Dr. Theodore Atlas. Dr. Atlas was a physician who for 55 years provided medical services to his community, including building two hospitals so that all people could get proper care. His spirit of giving is embodied in the Foundation that bears his name.

The Foundation comes to the aid of people in a variety of difficult situations, people who have nowhere else to turn for help, people who would otherwise fall between the cracks. And it does so in a very direct and very real way. Once the Foundation identifies a person or a family in need, it moves immediately to help, and avoids any bureaucratic obstacles that might damage the recipient's pride.

The foundation has helped thousands of people in need in a variety of ways from installing handicap ramps and at times even purchasing vans for invalid children to buying wheelchairs and other medical equipment not provided by insurance. The foundation has flown families out of state to receive the proper treatment program and paid the rent to keep a family from being forced into a city shelter. The foundation distributes 1,500 turkeys with the trimmings to needy families at Thanksgiving and runs a food pantry that feeds senior citizens in the projects. There are many other programs that the foundation has created to insure that the neediest amongst us are never forgotten and always cared for.

We will stay committed to this mission with the continued support of the greatest people in the world. All of you.

Thank you and God Bless

The Dr. Theodore A. Atlas Foundation
